Slate Vents

- Small slate vent is a ventilation slate to suit 600 x 300mm (24 x 12") and 500 x 250mm (20 x 10") slates, for roof pitch of 20°-70°.
- Use the 75/100mm flexible adaptor. Airflow 4500mm².
- Uni line slate vent is an in-line ventilation slate to suit both 600 x 300mm (24 x 12") and 500 x 250mm (20 x 10") double-lap slates, for 22.5° and above. Airflow 6500mm².
- Both vents for use in new or re-roofing situations.

Ref	Description	Unit
Z20045	500x250 Flush Fit Slate Roof Vent	Each
Z20047	600x300 Flush Fit Slate Roof Vent	Each
Z20044	Universal Hooded Slate Roof Vent	Each
Z20050	Hooded Slate Vent Pipe Adaptor	Each
Z20049	Inlet Slate Vent Adaptor Kit	Each

Soffit Vents

- 70mm diameter, fit at 160mm centres to achieve 10mm/m² airflow.
- Hole saw to suit push-in vents.
- Continuous soffit vent is a slotted vent strip that provides continuous eaves ventilation. Available in 10,000mm² and 25,000mm² airflow. Suits soffit boards 6-10mm thick.

Ref	Description	Unit
