

Wall Ties – Type 1

- Heavy duty wall tie, can be used on all types of buildings, tested to Type B (Sound) Type 1 (Strength) BSEN845-2

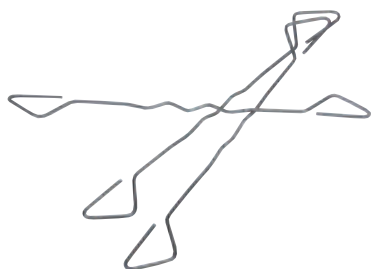

Ref	Description	Unit
	225mm St/St Heavy Duty Wall Tie - T1	Pk 250
	250mm St/St Heavy Duty Wall Tie - T1	Pk 250
	300mm St/St Heavy Duty Wall Tie - T1	Pk 250

Wall Ties – Type 2

- Medium duty general purpose wall tie, for use on most domestic & some small commercial properties. Can be used up to 15m/3 storeys. (Replaces Double Tri wall tie) Tested to Type A (Sound) Type 2 (Strength) BSEN845-1

Ref	Description	Unit
MT0014	200mm St/St Cavity Wall Ties - T2	Pk 250
MT0013	225mm St/St Cavity Wall Ties - T2	Pk 250

Wall Ties – Type 4

- General purpose light duty wall tie, suitable for domestic dwellings for up to 10m/2 storeys. (Replaces Butterfly wall ties). Tested to Type A (sound) Type 4 (Strength) BSEN845-1
- Non tangle design.

Ref	Description	Unit
MT0015	225mm St/St Housing Wall Tie - T4	Pk 250
MT0032	250mm St/St Housing Wall Tie - T4	Pk 250

Insulation Retaining Discs

- Used to retain insulation against internal skin of cavity.

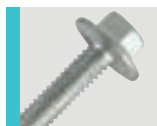

Ref	Description	Unit
M60020	Insulation Retaining Clips	Pk 250

Wall Ties – Timber Frame

- Stainless steel tie to secure inner timber frame to outer brick skin in timber frame situations. Can absorb substantial vertical movement.
- Price includes stainless steel fixing nails.

Ref	Description	Unit
MT0017	50-75mm St/St Timber Frame Tie	250
MT0041	100mm St/St Timber Frame Tie	250

**Don't forget
Drill Screws**

Don't forget Joint Foam and Sealant

see page 22

De-Bonding Sleeves

- De-bonding sleeve should be installed with a minimum of 10mm gap left at end to allow sufficient movement.

Ref	Description	Unit
	120x20 Debonding Sleeves	100

Screw In Frame Ties

- Traditional screw-in frame tie for securing timber to masonry.
- Can be used to secure timber window boards.

Ref	Description	Unit
MT0018	130mm St/St Screw-In Frame Ties	Bx 100
MT0020	180mm St/St Screw-In Frame Ties	Bx 100
MT0021	200mm St/St Screw-In Frame Ties	Bx 100
MT0022	225mm St/St Screw-In Frame Ties	Bx 100
MT0019	250mm St/St Screw-In Frame Ties	Bx 100

MT0018

Wall Connectors

- Stainless Steel wall starter profile.
- 2x1.2m lengths per pack.
- BBA Approved.
- 1 x Fixing Pack (coachscrews, plugs & washers).

Masonry Repair

- Cost effective masonry repair. Helical bar is a reinforcing bar extruded from stainless steel. This design produces a helical bar with very high tensile qualities. A high performance, non shrink, thixotropic, cementitious grout is used to bed this bar into the masonry. This can be applied using a mortar pointing kit.
- Crack Stitch Starter Kit includes : 10no. 6x1000mm St/St Helical Bars, Pointing Gun, 9.5mm Pointing Nozzle, 3L of Cementitious grout, Mixing Paddle & Finger Trowel.
